Prateek Sapkota

DataOps Professional | Helping Global Enterprises Achieve Secure
Data Solution Deployments with Azure Cloud | Data Integration,
Containerization, CI/CD, Kubernetes
Pune, Maharashtra, India

Summary

I am skilled Data Engineer and Cloud DevOps Engineer with experience in building enterprise-wide cloud hosting platforms for Data, Analytics, and applications in the Azure cloud environment.

I have extensive knowledge of Azure services and hold an Azure certification, with proficiency in Python and Synapse Analytics. In addition, I possess skills in Terraform, GitHub Action, and PowerShell, which I have utilized to implement cloud hosting platforms that leverage Cloud-native application development, data governance, and zero trust models for data and analytics.

Experience

Rapid Circle

Cloud Consultant (DataOps)

March 2022 - Present (3 years 11 months)

Pune, Maharashtra, India

- Implementation of enterprise-wide cloud hosting platform to host Data, Analytics, and applications in Azure cloud environment.

- This platform leverages the Cloud-native application development, solves the mystery around data, and analytics, implements data Governance & secures data/apps using a Zero trust model

- Prepared high-level and low-level design documentations during implementation.

- Implemented the docker container lifecycle using ACI and ACR based on the recommendations.

- Prepared scripts to automate the application installation and configurations.

- Implemented CI/CD lifecycle and IaC best practices.

Infotechtion

Data Engineer

April 2025 - June 2025 (3 months)

Contractor. Under the payroll of Rapid Circle.

Shell

Cloud Consultant

May 2022 - October 2024 (2 years 6 months)

Pune, Maharashtra, India

Under the payroll of RapidCircle.

Microsoft

Microsoft Student Partner

August 2019 - February 2022 (2 years 7 months)

Kathmandu, Nepal

Freelance

AI Consultant

January 2021 - January 2022 (1 year 1 month)

Remote

Worked on a freelance and contract basis for different projects like:

- Migration of SSIS packages to Azure Data Factory.
- Design and implementation of speech recognition technology for the evaluation of English language spoken tests.
- Implementation of debugging pipeline for the python codebase using Pytest, Pylint using GitHub Actions.

Hash Analytic

Data Analyst

June 2020 - July 2020 (2 months)

United Kingdom

Data Analytics and Visualization Internship

Tools:

- Python(Pandas, Numpy, Scikit Learn, Seaborn, Matplotlib)
- Tableau
- Google Analytics (with certification)

IEEE

Student Member

February 2018 - August 2019 (1 year 7 months)

DN: AI Developers Nepal

Volunteer

December 2017 - May 2019 (1 year 6 months)

Nepal

<https://aidevnepal.github.io/>

<https://github.com/AiDevNepal>

Part of Developers Nepal.

DN: AI Developers Nepal

Objective: Crafting AI Research

Facilitated as organizer of the AI Saturday Workshop, a 14-week event.

AI Saturdays is a global movement across the globe initiated by Nurture.AI, a Singapore based company, to make artificial intelligence education at the quality and rigour of the world's best universities accessible to anyone for free.

MPercept Technology

Associate AI Engineer- Machine Learning

June 2018 - August 2018 (3 months)

Lalitpur, Nepal

It was 3 months long internship where I learned and worked on Natural language processing projects. Along with that, I got the opportunity to harness my soft skills through the company's socializing events, project demos, etc.

- Focus: Natural Language Processing, Machine Learning

- Tools: Python, Pandas, Numpy Scikit-Learn, Spacy, NLTK, Rasa, Scrapy

- Projects: Built 2 projects related to NLP from scratch.
